The Institute of Civil Engineers & Architects, Surat.

GREETINGS FOR STHAPATYA

Bhupendra Patel

Chief Minister, Gujarat State

Dt. 30-06-2023

Message

Imagination is the base of any creation. Architecture style was being discovered on the basis of creative innovations. In ancient era construction was began with purely functional need for a controlled environment to moderate the effects of climate. Modern construction techniques have also been hugely adopted. So, we can say that we have accepted modernization but never forget our ancient culture.

I am much pleased to learn that **The Institute of Civil Engineers and Architects (ICEA)** is organizing an exhibition named “**Sthapatya**” during **5th to 8th January, 2024** at **Surat**. It is noteworthy that the objective of this exhibition is to provide information about new products relating to Building & Construction Materials, Architectural and Interior products. I hope, it will provide an exceptional platform for the innovative minds of construction arena that may shape future of our Nation. I hereby, convey my best wishes to the organizing team and all the participants including stakeholders for a bright future ahead and for success of the **Souvenir** to be released during event.

(Bhupendra Patel)

To
Shree Dilipbhai Patel, President,
The Institute of Civil Engineers & Architects (ICEA),
ICEA Gordhan Hall, Suryapur Society,
Rander Road, Surat-395009.

Apro/md/2023/06/30/rs

ABOUT **STHAPATYA**

The Institute of Civil Engineers & Architects, Surat (ICEA) established in 1966; today enjoy the dictum of being referred to as "THE APEX BODY OF ARCHITECTS, CIVIL ENGINEERS & INTERIOR DESIGNERS" with more than 1000 members. Promoting the most modern & latest technologies of the profession and sharing the same with the community at large; ICEA organizes each year its flagship event Sthapatya in form of an Exhibition.

The name that carries in projecting & presenting to the professionals and the society at large is STHAPATYA - an exhibition of building materials, architectural & interior products; which even the architects, civil engineers, planners, interior designers, contractors, builders eagerly await.

The 27th edition of STHAPATYA scheduled from 7th to 10th February 2025 will be at the prime location with huge open space, ample parking and of course the swift exhibition layout covered in air-conditioned domes, This STHAPATYA will provide the exhibitors may they be manufactures or traders or dealers and service providers to display the products most conveniently attracting professionals and end users.

We are all set to break our own past record of visitors which we are sure the Exhibitors look forward to.

Come and be a part of the most enviable exhibition of South Gujarat STHAPATYA 2025.

ABOUT ICEA

Established in 1966; The Institute of Civil Engineers and Architects, Surat popularly known as ICEA is an apex body of practicing Architects, Civil Engineers, Interior Designers, Urban Planners and those affiliated to the field i.e. Civil Contractors & Surveyors.

Low profile yet vibrant; humble in approach but effective and an structure development and more particularly the construction Industry at large. The major activities include Technical Seminars and Workshops, symposiums on subjects benefitting real estate at large and technical tours for members to remain in touch with the most modern and latest technology + material.

With its varied events and activities; ICEA has earned recognition from local and competent Authorities such as Government of Gujarat (GOG), Surat Municipal Corporation to the society are the key words on which ICEA functions which led to being invited to represent on various important committees of government; prime being our Major role in framing policy like GDCR.

ABOUT SURAT

A vibrant city with a rich historical and cultural legacy, Surat is located in Gujarat, a state in western India. The history of Surat may be traced back to the historic port city of Suryapur.

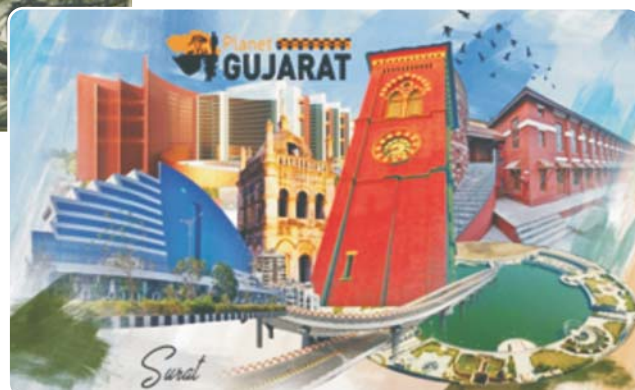

The importance of the city as a thriving hub of trade and commerce that drew traders from all over the world is discussed during the mediaeval ara. In addition to these European visitors, others who travelled to Surat and other regions of the nation in the 17th century left a good account of the socioeconomic status of the populace and their commercial pursuits. They were present as eyewitnesses and have recorded the social and economic status of the populace directly. They travelled by various routes and with various objectives.

In terms of population, Surat is the eighth-largest city in India and the biggest outside of the capitals. Surat is the fourth-fastest expanding city in the world, according to the city mayor's foundation report. The city's economy is thriving. The diamond and textile industries are cetered there.

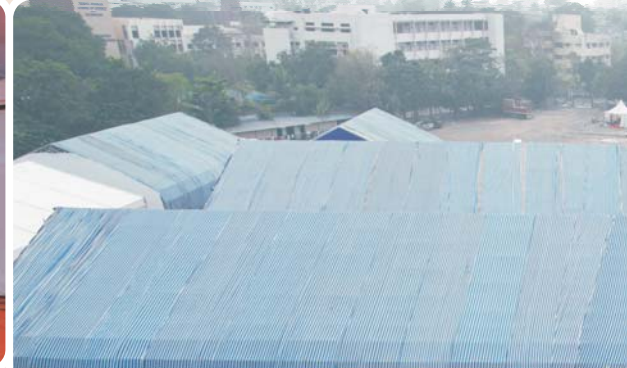

A LAND OF **OPPORTUNITIES**,
WHERE **IDEAS** MEET **IMAGINATION**.

- Surat is predicted to have the fastest growth rate in the globe, with an annual growth ratio of 9.2%
- 90% of the world's total rough diamond cutting and polishing is done in Surat.
- Surat produces 40% of the nation's total man-made fabric and 28% of its total man-made fiber output in the textile industry.
- With the decadal growth of over 55%-60% since last four decades, As per Ministry of Housing and Urban Affairs (MoUHA) Surat is the second cleanest city of India.
- According to NCRB, Surat is the Fifth safest city in the country.
- The city ranked 4th on the smart city mission with zero unemployment region in the country.
- The city is home to several large domestic corporations, including AM/NS, Reliance Industries, ONGC, GAIL, Ultratech Cement & Ambuja Cement.

Still today, Surat continues the same tradition as people from all around the country flock in for business and jobs. Surat has practically 0% unemployment rate and jobs are easier to get here due to very fast development of various industries in and around Surat City.
